## RANDOM REFERENCES

Evening Service Omitted—The usual Wednesday evening service at the Church of the Good Shepherd will be omitted this evening to enable all to attend the special meeting in the interest of the Laymen's Missionary Movement at the Congregational church.

Advertisers must have their copy for the Evening Standard the evening before the day on which the advertisement is to appear in order to insure publication.

Had Extended Trip—Fred P. Naisbett returned on one of the detoured trains from the west yesterday from an extended trip through Southern California, Arizona, New Mexico, Texas and Juarez, Mexico, where he witnessed a real Spanish bull fight. Mr. Naisbett had a pleasant trip, but says he found no place like Ogd.

WANTED—Clean white rags at the Standard.

Call Allen, phone 22, for carriages for funerals and opera. Private calls a specialty. Also prompt delivery of baggage. 412 25th.

YOU WILL MISS THE TREAT OF YOUR LIFE IF YOU DON'T SEE THE ORPHEUM SHOW THIS WEEK.

He Did.

Tommy came out of a room in which his father was tacking down carpet. He was crying lustily.

"Why, Tommy, what's the matter?" asked his mother.

"P-p-pa bit his finger with the hammer," sobbed Tommy.

"Well, you needn't cry at a thing like that," comforted the mother.

"Why didn't you laugh?"

"I did," sobbed Tommy, disconsolately.—Housekeeper.

## Germs in Her System

Every Woman Should Read this Advice and the Generous Offer that Goes With It

The number of diseases peculiar to women is such that we believe this space would hardly contain a mere mention of their names, and it is a fact that most of these diseases are of a catarrhal nature. A woman cannot be well if there is a trace of catarrh in her system.

There is only one way to overcome catarrh. That way is through the blood. You may use all the snuffs, douches or like remedies for years without getting more than temporary relief at best. Catarrh in general is a diseased condition of the system that shows locally most frequently in discharges from mucous membranes. Local treatment should be assisted by internal treatment for the general diseased condition if a complete cure is to be reached. That internal treatment should be scientifically devised and faithfully administered.

There is only one way to overcome catarrh. That way is through the blood. You may use all the snuffs, douches or like remedies for years without getting more than temporary relief at best. Catarrh in general is a diseased condition of the system that shows locally most frequently in discharges from mucous membranes. Local treatment should be assisted by internal treatment for the general diseased condition if a complete cure is to be reached. That internal treatment should be scientifically devised and faithfully administered.

Rexall Muc-Tone is scientifically prepared from the prescription of an eminent physician who for thirty years made catarrh his specialty. This remedy is admirably adapted to the treatment of the catarrhal ailments of women. It purifies and enriches the blood, tends to stop mucous discharges, aids in removing impurities from the system, soothes, heals and strengthens the mucous tissues, and brings about a feeling of health and strength.

We want you to try Rexall Muc-Tone on our guarantee. If you are not benefited, or for any reason not satisfied, simply tell us and we will hand back your money. Rexall Muc-Tone comes in two sizes, 50 cents and \$1.00. Remember, you can obtain Rexall Remedies in Ogd. only at our store—The Rexall Store. The T. H. Carr Drug Co., corner Grant and Twenty-fifth St.

## NO MATTER

WHAT YOU want to bake you'll find

**PEERY'S CRESCENT FLOUR**

Will give you best results! While it makes excellent bread, its usefulness extends over every other branch of baking also—thus making it an ideal flour for home or professional bakers.

Try a sack today.

## THINGS DOING IN OGDEN BASEBALL

Determined to get some action on the baseball situation in Ogd. before the season is so far advanced as to make it useless, Dan Glinin and many others interested locally in the national pastime have requested Harry A. Sims to take charge of the local situation and Sims has accepted. He is promised local support and backing and as a first step has written John L. Tobler, of Salt Lake City advising that Ogd. is ready to enter a 4-team State league should the proposed re-organization of the Utah state league materialize, and will put in a first class team to win the pennant.

It is probable that a meeting will be held in the near future at which representatives of all prospective entrants to the league will be present to discuss arrangements and make plans for a speedy start on the season. Mr. Sims believes that Ogd.'s chances to put a team into the field which will give any of them a rub are excellent, and says that he intends to spare no efforts to make the season a success financially and every other way.

## PROMINENT MEN TO SPEAK HERE TONIGHT

Through the efforts of the committee attending the great Laymen's Missionary convention in Salt Lake City, Ogd. is to have the pleasure of hearing two of the principal speakers, Dr. M. D. Eubank of China, and Dr. John F. Goucher of Baltimore, Md. Eubank's speech at the opening banquet Monday night was one of the most inspiring treats of the whole convention. The interest manifested in this great movement which has for its motto, "The evangelization of the world in this generation," is making history in the Christian world. All over the country men are rising to a realization of what the opportunities are for accomplishing the dream of the age in this generation.

An earnest effort is being made to present the meaning of this movement to the people of Ogd., and at the meeting to be held this Wednesday evening at the Congregational church, all the churches of the city are to be represented, and every one who is interested in knowing just what the plan is, is urged to attend. Dr. Eubank and Dr. Goucher are speakers of unusual ability. There will be special music. No offerings will be taken. The great object in view being the dissemination of information that will show what is being accomplished.

## COUNTY JAIL CARES FOR CITY PRISONERS

All prisoners taken by the city for the next two weeks will be cared for at the county jail, owing to the quarantine at the city jail. This order went into effect yesterday and was made because in the last two weeks all men arrested for minor offenses and who would ordinarily be given five days were forced to remain under quarantine until all danger of infection had passed. This has worked a hardship on several workmen who were unfortunate enough to fall into the police net while filled with "hoose," and for this purpose the chief of police decided to retain all city prisoners at the county jail until the quarantine is lifted.

## MAHOMET OR CHRIST IS THE QUESTION

Salt Lake, March 8.—"Mahomet or Christ? This is the conflict of the century. Which shall rule?" asked Rev. Thomas Moody of Africa, when the laymen's missionary convention met in the First Methodist church at 9:30 o'clock this forenoon, with Bishop Nathaniel M. Thomas of Wyoming presiding. The church gallery was occupied by ladies.

These missionaries are devoted to their new plans and are modern in all their ideas. They believe in concrete projects and bring to their aid the same methods they have seen in great business schemes in all parts of the world. Travel and association with foreign peoples have made them tolerant, and have given them a sense of humor that might make them famous in literature.

These characteristics were made apparent by the various addresses made this forenoon.

The convention opened with prayer by Bishop Thomas, followed by a responsive reading from the Laymen's Missionary Hymnal. The principal theme of the reading was that all properly belongs to the creator.

"You will see by those readings," said Bishop Thomas, "that it is not a question of how much we shall give to missions, but how much of God's riches shall we spend on ourselves."

After the responsive readings, five minutes were spent in brief prayer by various clergymen. Bishop Thomas then introduced Dr. Rockwell Clancy, for twenty-six years a missionary in India. A big map of his majesty King Edward's Indian empire was hanging on the pipe organ, and Dr. Clancy made many references to it. He said he would tell the laymen delegates some practical things.

"Every fifth baby born in the world is born in India," said Dr. Clancy. We have 300,000,000 people over there. I love them. It was my home. Here and now, I invite you one and all to visit me in India."

## COMING, MARCH 11th &amp; 12th Friday and Saturday Evenings SATURDAY MATINEE

Scene, 3rd Act, Klaw and Erlanger's Massive Production, "The Roundup" OGDEN THEATRE

world is threatened. Well informed missionaries say that if the Christians do not convert Mohammedans, the followers of Islam will convert Christians.

Leaders believe that the door is open at last and that the present gives a wonderful opportunity, which Christendom will regret if advantage is not taken of it. Rev. Mr. Moody, who has labored for years in Africa, says that Mohammedanism is making a fight to proselyte unbelievers, and Dr. Rockwell Clancy of India says the enemies of Christianity have never been so active before. John E. Merrill of Turkey also believes that Christian religions must do the armor of aggressiveness if they are not to be driven out of the realms of the followers of Mahomet.

Well informed speakers just now attending the Salt Lake convention have been traveling over the entire country explaining to laymen and business men generally why the present offers a better chance to convert the world to Christianity than the past has offered. They say that many parts of the globe which hitherto have been almost inaccessible are now opened up by railways and that the general European invasion into heathen lands carries with it legal protection for the exponents of the gospel.

Raising a War Fund.

For this reason a huge war fund is being raised. Protestant churches in Canada have subscribed millions and the United States is asked to contribute more in proportion with the greater population.

## BAND REHEARSAL TO BE PUBLIC

The reorganized Ogd. band held a rehearsal Sunday afternoon in the City Hall band room with a large attendance. The following selections were rehearsed: "Bohemian Girl," by Baffa Tobani's arrangement and the overture to Ptoch's opera "Martha." At the rehearsal next Sunday the band will take up the celebrated Saml'ande, overture which has never been played by a local band. The public is invited to the rehearsals.

The following is the personnel of the Ogd. band: A. L. Agee, director; Ernest Ford, Eugene Stone, Fred Sims, J. D. Sweeney, L. Hinchcliff, Carl Lindquist, W. P. McFarland, clarinets; Ervin Ford, flute; Walter Lund, Charles Wittmore, Olive Blackburn, Alvin Bluth, E. Larson, cornets; Earl Harrop, H. F. Attwood, W. R. Newey, mellophones; Pete Fraise, Hyrum Lammers, Mille Blackburn, Claude Redfield, trombones; L. W. Ford and Roy Wilkins, baritone; F. A. Hriz, B. B. bass; Doc Snowden, George Barton, xylophone and bells; George Warner, small drum, and Ben Trimble, bass drum.

is the only county that has yet availed itself of this appropriation. Each member of the commission will visit several counties this spring to talk over the work of the commission with county commissioners. Efforts will be made to get something definite before the next legislature as a result of the work of the commission is now doing.

## FEDERATION OF LABOR ON STRIKE OF GIRLS

The Utah State Federation of Labor and the Salt Lake Federation of Labor Tuesday began the work of forwarding notice to all local unions, state and central trades, building trades councils and the Western Federation of Miners, requesting them to advise the general membership of the various organizations mentioned that the J. G. McDonald Candy Company of this city is uniting to the Chocolate Dippers' union. The body of the communication is as follows:

"To all local unions, state and city central bodies, building trades council and the Western Federation of Miners, greeting:

"The Utah State Federation of Labor and the Salt Lake Federation of Labor take this means of advising the general membership that the J. G. McDonald Candy Company of Salt Lake is unfair to the Chocolate Dippers' union. Therefore, we do not recommend J. G. McDonald's chocolate, cocoa, candy or any of the products of his factory.

The Salt Lake Federation of Labor also requests that the labor organizations throughout the state unite in the fight for the striking chocolate dippers and endeavor to bring about a settlement of this matter and see that justice is done the young women.

## MANY UTAH CITIZENS FAIL TO TAKE CLAIMS

Less than one-fifth of the claims of Utah citizens against the government on account of Indian depredations can be paid by the government, because citizens who suffered these losses in the early days have failed properly to present their claims. This statement is made by John Sansbury, special attorney for the government, who is in Utah adjusting the few claims that have been filed.

Mr. Sansbury says the government makes no charge for filing the claims, the only expense being that of an attorney to represent the claimant. One man in Provo presented apparently well-authenticated claims for \$27,000, all of which were barred on account of delay in filing them until after the prescribed time had elapsed.

The Salt Lake Federation of Labor and the Building Trades Council today will have printed and large circulars warning aliens not to come to Salt Lake in response to advertisements in various publications to the effect that labor is needed in this city, inserted by the Salt Lake Real Estate association. This warning will be distributed broadcast all over the United States, copies being sent to all labor organizations. In substance the warning reads:

"The Salt Lake Federation of Labor and the Building Trades Council draw your attention to the large number of unemployed, especially in the building trades, in Salt Lake City. This warning is issued in the hope that no person may be induced to come here under false pretenses by fictitious reports circulated by unscrupulous real estate boomers."

## IS PREPARING FOR MATCH

Tommy Dawson, the clever English lightweight is to meet Pete Sullivan, Ogd.'s popular adopted son, in this city March 25th has arrived here from Indianapolis and is preparing himself for the approaching match.

Dawson arrived in Salt Lake several days ago and after spending a day there came to Ogd. Tommy Walker, well known locally, has accepted the management of the English boy, and immediately asked for a postponement of the date of the meeting until March 25, declaring that Dawson would not have time to get in shape to make a fight between now and the announced date of the contest. March 17, Walker says that Dawson is naturally not in first class shape after the long trip here from Indianapolis and hence he asks a postponement, which has been granted by R. A. Grant who will stage the contest. Whether or not Pete Sullivan will consent to the delay is not known yet, but that he will offer no objection is the opinion of those interested.

Dawson has a record in pugilistic circles that is enviable, in which is a knockout of Jabez White, the English lightweight. He is full of confidence and expects to win from Sullivan on short notice. Sullivan has been doing some great work lately and has been keeping in first class shape whether getting matches or not. He is likewise full of confidence, declaring that he will return the winner.

Dawson and Tennessee will work out at the fire station every afternoon at 3.

## PERMIT ABOLISHED AT THE STATE PRISON

At a meeting of the State Board of Corrections, held at the state prison Tuesday, it was decided that hereafter those desiring to visit the penitentiary need not apply to the board for a permit to do so, as has been the custom in the past several months. A person can now secure admittance to the prison by paying 15 cents at the door, the money derived from this going to the prison library.

On week days the public is permitted to visit the prison between the hours of 9:30 and 11:30 a. m. and 1:30 and 4 p. m. On Sundays the hours are from 9:30 to 11:30 a. m., from 1:30 to 2 and from 3 to 4 p. m.

## MASON VALLEY WORK WILL BE CONTRACTED

Although the Salt Lake Route has already begun repair work with its own men and material on the minor washouts along the line due to the great flood on New Year's eve, it is understood that various railroad contracting firms are figuring tentatively on the work of rebuilding down the Meadow valley wash.

Railroads as an almost universal rule are built, or rebuilt, by contract, and the Salt Lake Route rebuilding, both for the temporary line and the permanent track, will probably be no exception to the rule. It is understood that the Utah Construction company, that has done so many million dollars' worth of work for the Harriman interests, will no doubt be one of the chief concerns on the work. George Thompson, the railroad contractor who has built the Harriman tracks down the Snake river from Huntington, is expected to be another heavy bidder. Other railroad contractors also have the eyes on the work, and it is understood that all contractors who can deliver the goods will have all the chances they want.

## TEACHERS ADDRESSED BY DAVID O. MCKAY

At the Weber County Teachers' institute, held in this city last week, David O. McKay, former principal of the Weber Academy, delivered an interesting and instructive lecture on "The Real in Education." He said in part:

"The seeming realities of life are not always known. The reality is within. Every investment is made with the expectation of a dividend. The Government of the United States is investing immense sums of money in education. The expected dividend is not doctors, lawyers, etc., but in genuine men and women. The seeming realities of education named in the curriculum is not the end but the means.

There are three ends of education—the decorative, the utility and the creative.

"Right education develops the common ground of democracy. The right ideal of education is the creative ideal—to develop the child as Burbank develops the plants.

"Teacher and home are responsible for the kind of boys and girls turned out by the school.

"Aims: (1) Teach students to see clearly, (2) to imagine vividly, (3) to think steadily, (4) to act nobly.

"It is very well to have Utopian dreams, but we must deal with the things as they are.

"Every subject taught should teach some great reality beyond the lesson.

"It should be the soul we should be after above all others.

"Teach pupils to lose honorably rather than succeed dishonorably.

"True education is the drawing out of the best from within."

President Stratford of the Board of Education wished that he were a boy again with the present system of education, that he could be the recipient of such training as Mr. McKay had portrayed in his address. It is better for the teacher to go more than half way to meet a recreant boy. Do not let him think that you are his enemy.

Mr. Robson, member of the board, was very much impressed with the institute exercises and the address by Mr. McKay.

**Gray Hair FREE!**

Mary T. Goldman's Gray Hair Restorer restores original color in mid-bronze hair from 1 to 15 days. Entirely different from anything else on the market. It is permanent and does not wash out. Use no medicine, so it's neither sticky nor gross. It's as pure as the eye can see. Don't experiment—use what thousands of others have found safe and satisfactory. Samples sent absolutely free. Write to: MRS. T. GOLDMAN, 1501 N. 1st St., St. Paul, Minn. The large size \$1.00 bottle sold by all dealers, including:

**BADCON'S PHARMACY.**

## HOW HE CURED HIS RHEUMATISM

"Six years ago I had a severe attack of Rheumatism. I was confined to my bed for six months, and the doctors seemed unable to help me. I tried many liniments, plasters, home remedies, etc., but none of them gave me any permanent relief; the symptoms always returned when such treatment was left off. My knees and elbows were terribly swollen, so bad in fact, that for a while I could not move hand or foot. I certainly had one of the severest cases of Rheumatism I ever heard of. I was getting discouraged when I heard of S.S.S., but as it was recommended to me as a fine treatment for Rheumatism I began its use. This medicine soon helped me, and I continued taking it until I was cured sound and well. S.S.S. relieved the swelling, purified my blood, stopped all pain, and cured me entirely. This was six years ago and I have not had Rheumatism since."

1355 Mt. Vernon Ave., Columbus, O. R. H. CHAPMAN.

The severity of Mr. Chapman's case of Rheumatism proves the value of S.S.S. as a cure for this disease. It is just another demonstration of the fact that only a blood purifier can conquer the trouble.

Rheumatism is an acid blood fermentation; a souring of the circulation from an excess of uric acid in the blood stream. This uric acid impurity is transmitted to the blood through the process of absorption, and comes as a result of constipation, indigestion, weak kidneys, etc.

When the blood becomes infected with this uric acid impurity the complications of Rheumatism are set up. The circulation is no longer able to furnish the different muscles, nerves, joints and bones with nourishment and strength, but instead deposits into these members the gritty, pain-producing acid with which it is contaminated.

Rheumatism is usually manifested in the joints and muscles. It is here its sharpest twinges of pain are felt, and stiffening of ligaments and tendons first commence. The pain of Rheumatism is caused by the contact of the sensory nerves with the gritty, acid formation which uric acid causes to accumulate in the corpuscles of the blood. The severer symptoms of the disease come on gradually. Constantly the circulation deposits the uric acid particles into the muscles and joints, and slowly the natural fluids are dried up or hardened. Then Rheumatism becomes chronic and serious, and if allowed to run on, may permanently cripple, or break down the health of the sufferer. Like all blood diseases, Rheumatism can be transmitted from generation to generation. This explains why young persons, and others, are afflicted with it, who have always been healthy otherwise.

There is but one way to cure Rheumatism, and that is to purify the blood—cleanse the circulation of the uric acid impurity. S.S.S. goes into the blood and attacks the disease at its head, and by removing every particle of the uric matter, and building up the blood to a healthful condition, this medicine destroys the cause and cures Rheumatism. When S.S.S. has cleansed the blood of the acid impurity, enriched and warmed the circulation, then the nerves are quieted, the muscles become elastic, the blood tissues are thickened and freshened, all pain disappears, and the feverish, inflamed flesh is soothed and made comfortable. Nothing equals S.S.S. as a cure for Rheumatism, because nothing equals it as a blood purifier. Insist on getting S.S.S. We have a special home treatment book on Rheumatism which we will send free to all who write.

**S.S.S. PURELY VEGETABLE**

THE SWIFT SPECIFIC CO., ATLANTA, GA.

## EDWARD BOYER KILLED IN SMELTER AT TOOELE

Tooele, March 8.—Edward Boyer, an employee of the International smelter here, was killed while at work at the smelter at 9 o'clock this morning. Mr. Boyer, who had been employed as an apprentice machinist, was adjusting a piece of machinery near one of the big fly-wheels in the power house. His loose jumper caught in the revolving wheel and he was jerked through the air and landed about fifteen feet from where the accident occurred.

Nearly workmen witnessed the accident and quickly summoned medi-

cal aid. Upon examination it was learned that the chest of the young man had been badly crushed, while his body was lacerated in many places. He lived about forty minutes after the accident. Mr. Boyer came here about three weeks ago. He was 26 years old and has a mother and father residing at Anaconda, Mont. A telegram was received tonight, saying that the father of the victim had left for this place to take care of the remains.

A-LASS!

Rustling silk has wrought more havoc in this world than thundering cannon.—Judge

## Spring Opening

Your presence is desired on Thursday, Friday and Saturday, at our formal Spring Opening.

150 Pattern Hats just received.

**Stafford Millinery Co.,**
